

**170.206.8** M170 Control

M170 - M170 OT Positions chart

**170.206.23** M170 OT Control

KR: 4 outlets version assembled with M172 valves

## M170 - M170 OT CONTROLS

- Manual control unit to operate the spraying sections, max. working pressure 50 bar/725 PSI.
- Choice of components and careful assembly allow an accurate pressure adjustment even at low pressures. PTFE cam seats grant smooth operation and sharp selection of positions;
- Multiple configurations available on both models;
- M170 OT available in KR version with 2 M172 valves to obtain 4 independent outlets.
