

[M401

Pressure regulator suitable for spraying equipments, orchard and boom sprayers. Conceived as modular unit to fit on M200 solenoid sets of valves. Due to the FPM by-pass diaphragm the pressure regulation will be in the range of $\pm 5\%$.

Max. output: 160 l/min - 42USGal/min. with 2 bar - 29 psi pump circuit residual pressure

M401
40 bar
580 psi

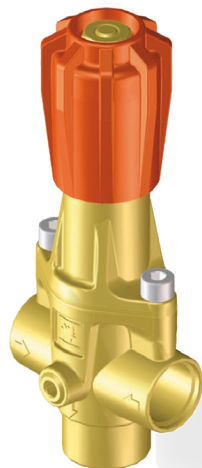

M401
20 bar
290 psi

[M410 - M411

M410] 60 870
M411] bar psi

M410] 25 360
M411] bar psi

M410 and **M411** are pressure regulators suitable for spraying equipments, orchard and boom sprayers. New T-body with 1/4" BSPF. thread for pressure gauge. Used for both pressure regulation with by-pass and max pressure setting.

Max output: 180 l/min - 48 USGal/min.

Version	Outlet
M410	3/4" BSPF.
M411	1" BSPM.
